

CALSORB™

ORAL CALCIUM SUPPLEMENT FOR DOGS

Canine hypocalcemia requires a quick response: Calsorb® can provide an easy-to-use, cost-effective aid for calcium deficiency.

- Rapidly-absorbing calcium supplement containing 170 mg/mL calcium in a gel base
- Pre-packaged in a 12 mL clear does syringe for quick, accurate dosing

Just provide 1 to 3 mL initially, depending on the severity of the condition and follow-up with additional doses of Calsorb® as needed.

Why Calsorb?

- Easy to use
- Easy dosing
- Rapidly-absorbing calcium
- Alleviate need for IVs

CALSORB™

ORAL CALCIUM SUPPLEMENT FOR DOGS
