

Dogs Love PROIN[®] ppa (and so do their owners)

For urinary incontinence in dogs, there's one that more veterinarians recognize and recommend: Proin[®] ppa.

- Phenylpropanolamine is effective in over 80% of canine urinary incontinence cases
- Liver flavored to be palatable to even the pickiest dogs – can be given as a treat
- Contains no beef or beef by-products
- Comes in several chewable tablet sizes and a flavored liquid to help make client compliance easier – no splitting or crushing tablets needed
- Flexible 1-2 mg per kg dosage for more accurate dosing
- Convenient dispensing with child resistant packaging
- Backed with free client education materials that make your job easier

The Right Tablet for the Right Size Dog
