

SLOW RELEASE CMPK BOLUS

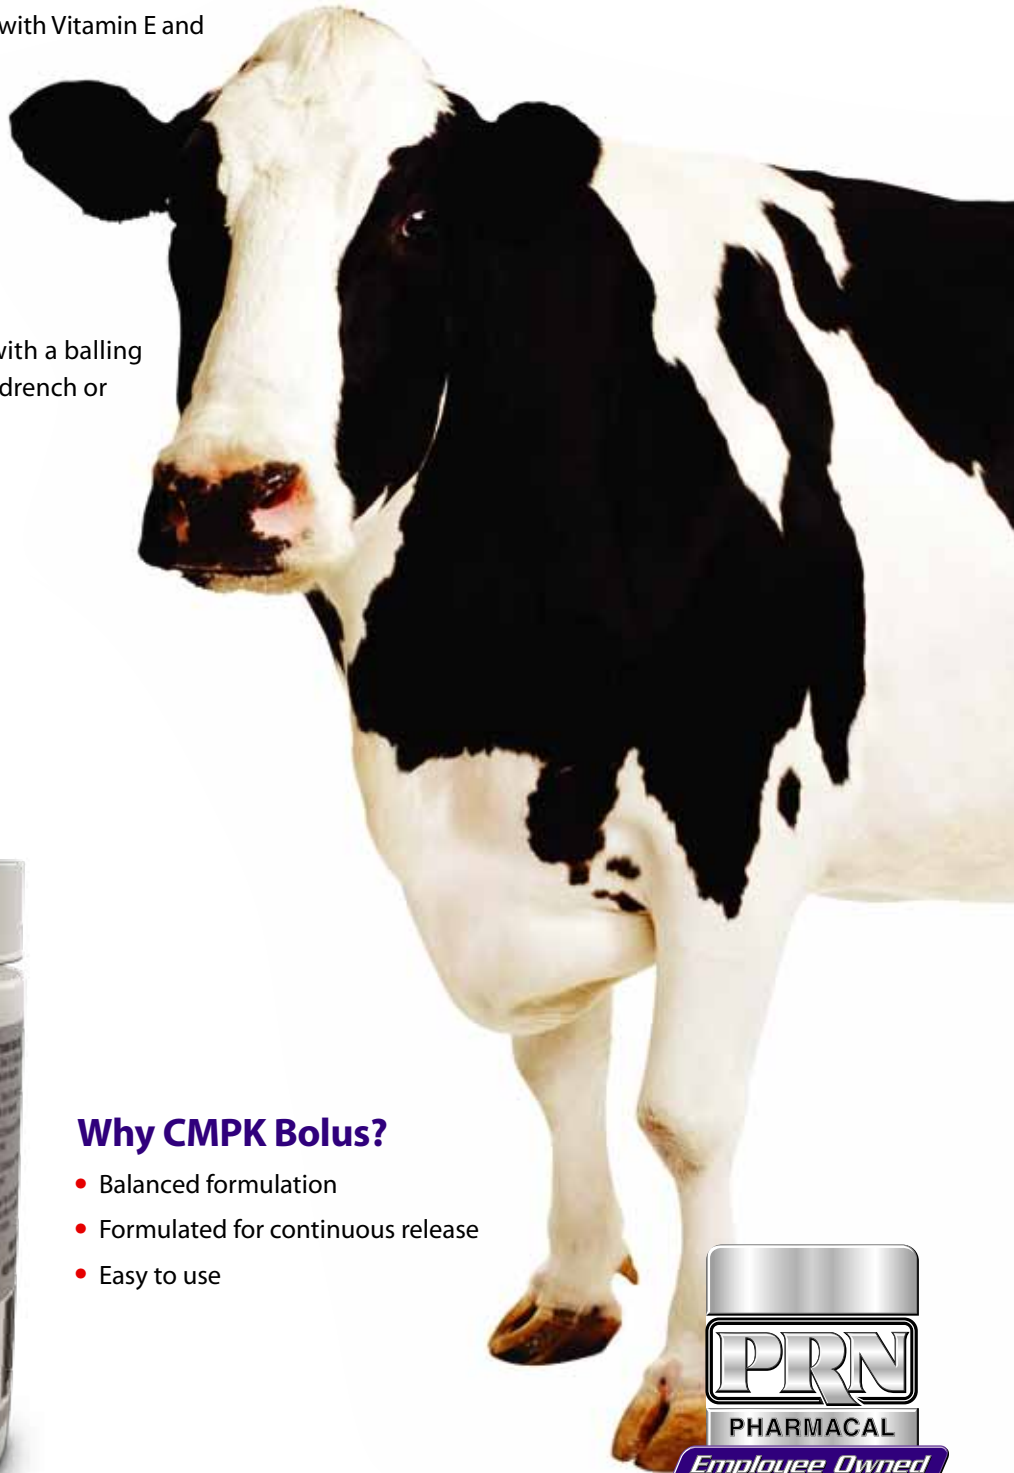

Oral Supplement for Cattle, Horses, Sheep and Swine

Slow Release CMPK Bolus provides for the additional dietary needs of cattle, horses, sheep and swine by providing a source of calcium, phosphorous, potassium and magnesium along with Vitamin E and Vitamin D3 for improved absorption.

The minerals and vitamins in Slow Release CMPK Bolus can help avoid problems such as:

- Milk fever
- Grass tetany
- Lactation failure in swine

The bolus is easy to use; it can be given orally with a balling gun, crushed and mixed with water or milk as a drench or crushed and sprinkled on daily feed rations.

Why CMPK Bolus?

- Balanced formulation
- Formulated for continuous release
- Easy to use
