

OPTIMA 365™ *Flavored Oral Solution*

Seasonal shedding is a common occurrence in pets. The natural loss of hair allows for a new coat to come in; making the pet more comfortable. However, if constant or excessive shedding is occurring, it may be an indication of a nutritional deficiency. Dogs and cats have a fundamental dietary requirement for certain fatty acids that they cannot produce on their own. Omega 3 and omega 6 can only come from the food they eat or the nutritional supplements they take.¹

OPTIMA 365™ is an optimal combination of vitamins, minerals, fatty acids and amino acids that promote a healthy skin and coat. The formulation of these ingredients in a flavored, oral solution support the reduction of non-seasonal shedding.

- FEATURES:**
- Balanced ratio of omega 6 and omega 3 essential fatty acids
 - Does not interfere with normal, seasonal shedding
 - Contains 76 calories for each 1 Tablespoon serving
 - Flavored oral solution for both cats and dogs
 - Once daily dosing recommendation
 - Bottles come with no-drip spout for easy dispensing; gallon comes with pump dispenser

- BENEFITS:**
- Supports the appearance of skin and coat condition that may help reduce excessive shedding and appearance
 - Helps make the pet more comfortable while still allowing normal, seasonal shedding
 - Easy to dispense/administer
 - No more excessive shedding means less fur clean-up for the pet owner
 - Pet-friendly flavoring for dogs and cats to help ensure the pet will consume the solution

Forget the lint roller. Offer clients whose pets have excessive, year-round shedding, a nutritional solution.

OPTIMA 365™ *Flavored Oral Solution*
