|---|-----------------|
| (S)-Methoprene (CAS #65733-16-6)..... | 0.085% |
| Permethrin (CAS #52645-53-1) | 0.350% |
| Phenothrin (CAS #26002-80-2) | 0.300% |
| N-octyl bicycloheptene dicarboximide (CAS #113-48-4)..... | 2.000% |
| Piperonyl butoxide* (CAS #51-03-6)..... | 1.750% |
| OTHER INGREDIENTS**: | 95.515% |
| TOTAL | 100.000% |

* (butylcarbityl)(6-propylpiperonyl) ether and related compounds
 **contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN CAUTION

Vet-Kem® Carpet and Premise Spray kills adult fleas, hatching flea eggs, flea larvae, ticks, cockroaches and ants. (S)-Methoprene, the ingredient in Vet-Kem® Carpet and Premise Spray, provides 7 months' protection by preventing eggs from ever developing into biting fleas. For best results, treat your pet with a product registered for that use, such as Vet-Kem® Flea, Tick and Bot Spray or other similar on-animal products for complete control of fleas and ticks.

READ ENTIRE LABEL BEFORE USE. NOT FOR USE ON HUMANS OR PETS.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

USE RESTRICTIONS: Keep people, pets and birds out of areas during treatment. Cover and unplug fish aquariums before spraying. Do not allow adults, children, or pets to enter the treated area until sprays have dried. Remove or cover exposed food or drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Not for broadcast use on indoor residential surfaces. Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not wet articles to point of runoff or drip. Do not use treated article until spray has dried. To apply at the maximum rate, spray for about 25 seconds to cover a 20 foot X 10 foot area. Do not apply more than one time per day. Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.

FOR USE IN THE HOME/GARAGE/KENNEL

1. **Identify treatment areas**, especially those where pets frequent, such as in and around pet's sleeping and resting areas. These are the primary areas where fleas, their eggs, and ticks are found. Before treatment, make a test application to upholstery, drapery, light-colored, delicate fabrics, or wood surfaces in an inconspicuous place.
2. **Prepare treatment areas.** Remove motor vehicles before using in garages. For best results with surface/carpet treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. This product may also be used for infested surfaces inside motor vehicles.

3. **Apply treatment.** For flea/tick infestations, a single can treats 2,000 square feet. Hold container upside down 2-3 feet from surface, point actuator towards the surface, and push button. Apply as a spot treatment only to surfaces of furniture, rugs, carpets, drapes, and around all pet resting areas until "slightly damp." Reapply in 14 days, if necessary. **IMPORTANT:** Only proper application to carpets, upholstery, drapes, and other fabrics will provide thorough flea/tick elimination. Do not apply directly to pets or animals. Vacate room after treatment and ventilate until surfaces are dry before reoccupying.

4. **For best results**, treat your pets with a registered flea and tick control on-animal product such as Vet Kem® Flea, Tick And Bot Spray or other similar on-animal products to eliminate fleas/ticks on your pets.

For cockroaches: Spray into hiding places, such as cracks, crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible. For ants: Spray trails, nests, and points of entry. Spray on ants where possible.

STORAGE and DISPOSAL:

Pesticide Storage: Store in a cool, dry area. Do not transport or store below 32° F. **Container Handling and Pesticide Disposal:** Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

| | |
|---|--|
| FIRST AID: | |
| IF ON SKIN OR CLOTHING | <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice. |
