KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation.

HAZARDS TO DOMESTIC ANIMALS

**DO NOT USE ON DOGS/PUPPIES LESS THAN 56 LBS.
OR PUPPIES LESS THAN 10 WEEKS OF AGE.**

For External use on dogs and puppies only. This product is not a substitute for prescribed heartworm preventative. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using **ANY** pesticide product for pets. If signs of sensitivity occur, bathe your dog/puppy with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Some dogs/puppies may experience hair loss or temporary skin irritation at the application site. If signs persist or become more severe, contact veterinarian immediately and report incident to company at 1-888-241-9545.

FIRST AID:	
If in eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after first 5 minutes, then continue rinsing. • Call a poison control center or doctor for treatment advice.
<p>HOTLINE NUMBER: Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may also call 1-888-241-9545 24 hours/day, 7 days/week.</p>	

The Vet-Kem® Applicator is specially designed to make applying flea and tick control easier and more precise than ever before. You simply insert the appropriate tube for your dog/puppy into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape makes it easy to grip and the built-in tip helps to spread the dog's/puppy's hair to allow the liquid to more readily reach the skin. The tube is sealed inside, so you can be confident that the liquid goes onto your dog/puppy – and not your hand. Plus, if the applicator is laid down on a table, counter or other flat surface, it won't run out or drip. Vet-Kem® Flea And Tick Spot On® For Dogs provides flea and tick protection for dogs/puppies for up to 30 days. This product is water resistant and remains efficacious following exposure to rainfall or swimming.

This product is most effective when used as part of a total flea and tick management program. Use other Vet-Kem® products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on dogs/puppies may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of dogs/puppies with this product rapidly kills fleas and may reduce the incidence of this condition.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **IMPORTANT! READ ENTIRE LABEL BEFORE EACH USE. FOR USE ONLY ON DOGS/PUPPIES 10 WEEKS OF AGE OR OLDER & GREATER THAN 56 POUNDS. DO NOT USE ON OTHER ANIMALS!** Read and follow all directions and precautions on this product label.

USE RESTRICTIONS: THIS PRODUCT IS FOR INDOOR USE ONLY. Do Not Allow Children to Apply this Product. Do not apply this product to puppies less than 10 weeks of age. Do not apply this product to animals other than dogs/puppies! Do not apply this product to dogs/puppies weighing less than 56 lbs. Do not allow your dog/puppy to ingest this product. Do not apply more than one tube per treatment for one dog regardless of the dog's weight. Do not reapply this product for 30 days unless retreatment is required, but not sooner than 8 days after the initial treatment. Do not retreat more than once per month. Do not use on cats. Keep cats away from treated dogs/puppies for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian.

Vet-Kem® Flea And Tick Spot On® For Dogs works by application directly to the dog's/puppy's skin, not to the hair. When applying, use applicator device tip to push aside dog's/puppy's hair to allow direct application to the skin. Do not get this product in dog's/puppy's eyes or mouth. In addition, dog must be dry 24 hours prior to application and remain dry for 24 hours after application.

**FOR USE ONLY ON LARGE (56-80 LBS.) DOGS/PUPPIES
(10 WEEKS OF AGE OR OLDER)**

To apply the treatment, use one disposable liquid tube for each application with the applicator device.

1. **OPEN:** Use finger scoop to lift open red door.

2. **LOAD:** To load, place tube WHITE SIDE UP under the red tabs.

3. **CLOSE:** Close the red door and the tube will snap open.

4. **APPLY:** The dog should be standing for easy application. To apply, use tip to part hair and get next to dog's/puppy's skin. Press circle on red door once at each of two evenly placed spots between the shoulder to the base of the tail.

Do not apply an excessive amount of the solution at any one spot that could cause some of the solution to run off the side of the dog/puppy. Do not spread this product by hand over the dog/puppy. Although the dog's/puppy's skin and hair oils will distribute the application over the entire dog/puppy, brushing the dog/puppy 12-24 hours after treatment will help to distribute the material over the skin.

5. **DISPOSE:** To dispose of empty tube, open red door and drop empty tube into trash or offer for recycling, if available.

6. Do not reapply product for 30 days unless re-treatment is required, but not sooner than 8 days following the initial treatment. Do not retreat more than once per month.

NOTE: Each package contains tubes for 3 applications.

STORAGE and DISPOSAL:

Pesticide Storage: Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals. Liquid Tube
Pesticide Disposal and Container Handling: If empty: Do not reuse tube. Place in trash or offer for recycling, if available.
If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

In case of emergency or for product information, call 1-888-241-9545 or contact your veterinarian if your pet is experiencing an adverse event.

Side Effects: Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or call Vet-Kem® at 1-888-241-9545.

DO NOT USE ON CATS
KEEP CATS AWAY FROM TREATED DOGS/PUPPIES FOR 24 HOURS. IF APPLIED TO A CAT OR INGESTED BY A CAT, CONTACT YOUR VETERINARIAN.
